

ABHINAV UTKARSH

SDET | Generative AI Engineer | Web Developer

Bengaluru, India | +91 9931805808 | abhinavutkarsh3@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Development Engineer in Test (SDET) with **3 years** of professional experience at **Cognizant**, delivering test automation for large-scale Insurance and Healthcare enterprise applications. Proficient in Selenium WebDriver (Java), TestNG, API validation, and AI-assisted test automation using Playwright with GitHub Copilot, Gemini, and Claude. Passionate about Generative AI — certified in GenAI and Prompt Engineering, with hands-on experience using Vibe Coding, LLMs (ChatGPT, Gemini, Copilot, and Claude), and AI-assisted workflows. Independently built and deployed multiple full-stack web tools and AI-powered applications as personal and freelance projects, demonstrating self-driven initiative beyond core QA responsibilities. Part of the Guinness World Record-holding team at Cognizant (Vibe Coding) and MCA Gold Medalist.

TECHNICAL SKILLS

Testing & QA	Selenium WebDriver, TestNG, Playwright (JS), Functional Testing, API Testing, Build Verification, Regression Testing, Defect Management
Generative AI	Prompt Engineering, Vibe Coding, ChatGPT, Claude, Google Gemini, GitHub Copilot, BotPress, Google Vertex AI, AI Workflow Automation
Programming	Java, Python, JavaScript, C, C++, OOPS, Maven, Spring Boot (Basics), PHP
Web Development	HTML5, CSS3, ReactJS, Tailwind CSS, Bootstrap, WordPress, Firebase, REST API Integration, AI Enabled Web Application Development
Tools & Platforms	Git, GitHub, SVN, Jira, Power BI, MS SQL Server, Word, Excel, Power Point, Canva, Agile (Scrum), Waterfall
Operating Systems	Windows, macOS, Arch Linux

PROFESSIONAL EXPERIENCE

Associate – SDET Cognizant Technology Solutions	Sep 2023 – Present
- Designed and maintained Selenium WebDriver automation frameworks in Selenium + Java for Insurance and Healthcare enterprise applications. - Built modular, reusable framework components (POM, Data-Driven) to improve scalability and reduce maintenance overhead. - Led Build Verification and Regression automation suites, accelerating release cycles and reducing manual regression effort. - Performed end-to-end UI and API-level validation, integrating automation scripts with backend services to validate system data flow. - Improved framework stability through intelligent waits, dynamic locators, and structured exception handling. - Leveraged ChatGPT, Google Gemini, and GitHub Copilot for AI-assisted test case generation, script debugging, and code refinement. - Part of the Guinness World Record-holding team at Cognizant (Vibe Coding) — applied AI-assisted coding at scale. - Managed full defect lifecycle in Jira and participated in Agile sprint ceremonies, stand-ups, and retrospectives.	
Web Developer Trainee Octanet Pvt Ltd	Jun 2023 – Sep 2023
- Developed responsive e-commerce web applications using HTML, CSS, and JavaScript. - Integrated third-party REST APIs and optimized frontend UI performance.	
Web Developer Caddesk Pvt Ltd	Jan 2023 – May 2023
Built client-facing websites with API integrations, backend connectivity, and deployment pipelines.	

KEY PROJECTS

- **PEMCO Insurance – QA Automation (Cognizant):** Performed Manual and Automation Testing for PEMCO Insurance enterprise application, developing and executing test cases across functional and regression suites. Contributed to reducing regression cycle time through Selenium-based automation, enabling faster and more reliable release deployments.
- **AI Agentic Task Manager:** AI-powered web task manager that auto-analyzes, prioritizes, and optimizes tasks using real-time deadline and urgency rules. [Demo](#)
- **Av_eSAFE Gurukul:** Dynamic e-learning platform for students and professionals built with HTML, CSS, JS, PHP, and Firebase database integration. [Demo](#)
- **DivyaLok Web Application:** Full-stack web platform with integrated AI chatbot for intelligent user recommendations. [Demo](#)
- **AI Chatbot:** Botpress Webchat integration supporting conditional conversational flows and rich media responses. [Demo](#)
- **AI Image Generator:** Custom web tool built on Pixel API for AI-generated image creation.
- **TestFlow – Build Verification Portal:** Automation framework portal to validate build quality and enable faster CI/CD deployment cycles. [Demo](#)

EDUCATION

Master of Computer Applications (MCA)

2023

Visvesvaraya Technological University, Karnataka | CGPA: 8.2 / 10 | **Gold Medalist**

CERTIFICATIONS

- Cognizant GenAI Certified Associate
- Cognizant Prompt Engineering Certified Associate
- Tricentis Tosca Product Consultant – PL1 & PL2
- Claude Certified Architecture – Foundation
- Oracle Cloud Infrastructure 2025 Certified Foundation Associate
- Certified Amazon Connect Developer
- Microsoft PL-300T00: Power BI Data Analyst
- Selenium WebDriver with Java – Basics to Advanced + Frameworks

ACHIEVEMENTS

- Guinness World Record – Cognizant Vibe Coding
- Swami Vivekananda Professional Excellence Award 2026 (Information Technology) – The Indian Award Forum
- Gold Medalist – Master of Computer Applications, VTU
- Winner – Management Buzz Event | BCA
